Pricing Methodology for Goods and Services Provided by Council

The pricing methodology for goods and services provided by council is based on the concept of user pays and cost recovery.

Description Column

Identifies the relevant fee.

Fee Charge Basis

Provides a description of how the fee will be charged.

Policy Link/s

Identifies appropriate relevant Council Policies which have a direct effect on the fee proposed. Note: Not all fees are linked to Policies.

Taxable

Identifies if a GST is applicable or otherwise to a fee.

Responsible Department

Identifies the department responsible for the programs to which the fees are applicable. Although Responsible Departments are required to set the relevant fees for programs, all queries in relation to fees should be directed through the Customer Administration Centre.

Legislated Fees

A large number of fees and charges in relation to Development are legislated through the Environmental Planning and Assessment Act. Council has no control over what these charges may be.

GST

In 2012/13 it was reported that changes to the Commonwealth, Tax Law Amendment (2011 Measure No 2) Bill 2011, would have a major impact on Local Government specifically in relation to charging GST on Special Rates & Waste charges proposed from 1 July 2013

The LGSA, on behalf of all NSW Councils, applied to the ATO for a class ruling on the treatment of GST and in January 2013 the ATO handed down Class Ruling 2013/1 which advised that all Council rates & charges remain 'exempt' from GST.

Bonds

Any portion of bonds/deposits retained will be subject to GST of 10%.
