STREET NUMBERING

Version 2

10. PROPERTY MANAGEMENT

10.12 STREET NUMBERING

OBJECTIVE: To determine a procedure when it is not possible to follow a normal numerical sequence.

POLICY:

When it is not possible to follow the normal numerical sequence, the following procedure will apply:

- (i) Existing numbers to remain unaltered.
- (ii) Suffixes A, B, C & D etc. to be used as required to distinguish the new blocks from those existing and in situations where more than one property is provided with access from a Right of Carriageway or other lawful private arrangement.
- (iii) That the suffixes be preceded by the number of the block nearest to the subdivision.
