

# Application for farmland rating

Made under section 515 of the Local Government Act 1993

For land to be categorised as Farmland for rating purposes it must satisfy the criteria as set out in Section 515 of the Local Government Act 1993.

## 515 Categorisation as Farmland

1. Land is to be categorised as “**Farmland**” if it is a parcel of rateable land valued as one assessment and its dominant use is for farming (that is, the business or industry of grazing, animal feedlots, dairying, pig-farming, poultry farming, viticulture, orcharding, bee-keeping, horticulture, vegetable growing, the growing of crops of any kind, forestry or aquaculture within the meaning of the Fisheries Management Act 1994, or any combination of those businesses or industries) which:

(a) has a significant and substantial commercial purpose or character, and

(b) is engaged in for the purpose of profit on a continuous or repetitive basis (whether or not a profit is actually made).

2. Land is not to be categorised as farmland if it is rural residential land.

3. The regulations may prescribe circumstances in which land is or is not to be categorised as farmland.

As per section 515(1) & (1)(a)

“**Business**” means the purchase and sale of goods and services in an attempt to make a profit

“**Commercial-Commerce**” means the interchange of goods or commodities especially on a large scale

As per section 515(2) if the property is of a rural nature and not farming the land as a business for commercial purpose, Council cannot rate the land as Farmland. Example of rural property, residential dwelling, horses for personal use, vegetable garden for domestic/own use – this is not considered to be Farmland in relation to the above legislation, this property would be rated as residential.

This application is to provide Council with the information required to evaluate your eligibility to receive Farmland rating in accordance with the legislative requirements.

Additional information is available in Council’s Farmland Policy which provides detailed information on farmland activities and requirements.
