ATTN GENERAL MANAGER

Following discussions with Federal Member Andrew Gee's office, I wish to submit an application (on behalf of Portland Golf Club) for this program.

The club would like to harvest water from the clubhouse roof and store this in an existing above ground tank (and reticulation system)

The work would involve upgrading/replacing guttering and down-pipes. replacing some fascia boards, digging a trench and laying pipework to the tank.

As I only became aware of this today the quotes I sought were only estimates from local tradespeople.

Guttering, down-pipes supply and fitting approx	\$10,500
Trenching and back fill	\$850
Drainage pipe supply and connection	\$650
TOTAL	\$12,000

Hoping this meets your requirements

Bob Roberts
(President) PORTLAND GOLF CLUB
