

--- All fencing marked with a dotted green line is 1.8m PVC fencing paneling and some timber paneling. To compensate for undulating changes in ground level, timber paneling is required beneath several PVC fencing panels. The north-eastern corner is the highest, reaching 1.8m PVC + 0.8m timber.
--- All other fencing reduces in height from this point, down to 1.8m PVC fencing only.

POOL: 8 M X 3.8 M FIBREGLOSS SHELL. VOLUME: 30,550 L
