Feedback I look forward to seeing another dog park closer to my end of town If not here, at least nearby. I find that in general the users keep these areas clean and clean up after their dogs, and are certainly responsible. In general the noise from such areas is negligible though Owners of Dogs whose homes back onto the area may find that the presence of other dogs nearby may cause barking problems from those properties.. something that does not have a bearing on the other 2 dog parks due to their isolation from other houses ... Parking at Montague St is seldom more than 3 or 4 cars at most normally. I hope that a compromise can be found between supporters and those who disagree. Though I do worry about loss of recreation space.

Feedback It would be an amazing benefit to the residents of vale of clywdd to have an off the leash dog park, as an owner of 2 big friendly dogs they love off the leash parks but the ones in town fill up fast. This also would be a benefit to my family as I have a young son to who loves to play with his dogs and loves parks this will give him the ability to play with the dogs and still play in a park.

Feedback I support this proposal as it would give dog owners greater choice of exercise and socialisation areas, especially those living nearest to this park. The other dog parks are well used and maintained and this one has the added bonus of having a children's playground nearby. The community hall, playground and dog park together would provide an ideal community space for local residents.

Feedback I am quite happy for that piece of land to be used as an off the leash dog park.  
Your flyer is rather confusing, as you have not marked the area, as you have on line, stating the purple shaded area indicates the extents of the proposed location.  
If the toilets and the play area were to be involved as the purple area indicates, I would be against it. I use that area frequently with my grand children.  
I also think having a fenced in area for dogs, would also prevent the traffic that use that area as off street parking instead of their on land, as it is a hazard when you have small children, with cars using it for parking, or repairing of vehicles, with colourful language being used in the progress.  
Your faithfully

**Subject:** Feedback on proposed off leash dog park to be situated off Mort street/ Hartley Valley Road.

Dear Sir/Madam,

I am writing to strongly support the establishment of the above dog park facility. I am resident in Mort Street near the Hartley Valley Road intersection and currently utilise the Montague Street 'Endeavour' dog park facility. With reduced mobility in recent years, I would find establishment of the proposed dog park to be of great assistance in me being able to meet my dog's exercise needs more readily.

After speaking recently with a helpful council staff officer, I understand that the need for provision of some type of shaded area and a water supply via means of a tap (for the refreshment/reinvigoration of the attendant canines) is to be included in the overall proposal. If this is accurate, I wholeheartedly congratulate Lithgow City Council for their initiative in providing this service. The councillor who proposed the motion and those councillors who supported the motion have served the citizens of Lithgow exceedingly well.

Hoping these comments are helpful, I am

Yours faithfully

[REDACTED]
