Subject: Possible Acquisition of World War Two Artillery Gun

Yes, I think this would be a wonderful acquisition for Lithgow and I believe it would be best suited to be installed at the Small Arms Factory Museum.

But instead of putting it in front of the museum where it could be vandalised, could it be placed just behind the now museum building on the grass. That way when you are in the build you can look down on the gun as well. (as sort of shown in photo)

Not sure if the museum can access this area but either way it would be a great placement and could help stop any vandalism of the lovely part of history.

Thank & regards
