Subject: Acquisition of 5.5 inch artillery piece

Subject to the cost of acquisition being reasonable I think this acquisition would be a very suitable complement to the array of weaponry already held at the Small Arms Factory museum. The existing anti aircraft gun emplacements and the small arms factory museum represent an important asset in our heritage tourism portfolio. The acquisition of such an important artillery piece can only enhance the potential of these assets.

Whilst on the subject it always amazes me that Lithgow isn't doing anything to promote the gun emplacements, they are a unique asset that could draw tourists in their own right.

Regards
