

Lithgow City Council Development Control Plan (DCP) 2021

This Development Control Plan (DCP) has been prepared as a joint project between **Lithgow City Council** staff and **iPLAN PROJECTS**, Planning & Development Consultants.

We would like to also thank Complete Concepts + Planning for new graphics and use and adaptation of some of the graphics from Cowra & Blayney Development Control Plans.

This DCP has been adapted from a literature review and some wording from other successful DCPs across NSW so those Councils are thanked for their contribution and assistance.

It also references guidelines produced by the NSW Government.

The Team would like to thank everyone who was involved in this project and provided feedback in the preparation of the DCP.
