

8.2. Mayoral Minute - 28/03/2022 - Lithgow Show 2022

Report by Mayor – Councillor Maree Statham

Commentary

I had the great pleasure of representing this Council at the recent Lithgow Show.

It was an absolute pleasure to see how this show brings our local community together. Individuals from all walks of life, young and old participate in the many competitions, showcasing their skills in areas like flower growing, the arts and creative activities. Local farmers also exhibit historical machinery, as well as livestock and other rural produce. Our emergency service personnel were also there reminding people of the role they play in safeguarding this city.

Events like this show are a part of the fabric that holds this city together in good times and bad. But they don't just happen without significant effort by volunteer committees, and of course the sponsors. This wonderful community event is only possible because of the hard work of the volunteers and the financial support of the sponsors. I have asked the General Manager to have correspondence prepared for me to thank these parties for their efforts.
